THE SPACE

The shell space features ample natural light through the large windows. The high concrete ceilings are favourable and insulate from any noise passing through. There are heating units that run across the northern and eastern walls, with an adjacent unit on the west side of the wall, keeping the whole unit well-heated.

The location and size are ideal for any retail or service use that can bring value to East Village and complement the neighboring businesses, including Good Earth Cafe and Laugh N' Learn Childcare.
